

DRAFT

**CENTENNIAL AIRPORT/COMMUNITY ROUNDTABLE
Development of A Statement of Purpose
June 2, 2009**

BACKGROUND

The following draft statement was created from the key elements that were identified by the group attending the organizational workshop on May 12, 2009. The elements that the group identified were:

- Be an integrated noise mitigation effort
- Embrace the 4-cornered concept of participation
- Consider current and future noise impact issues
- Focus on an adopted Work Program
- Provide for a performance-based measures of effectiveness
- Respect opinions of participants
- Provide an open agenda
- Share information with other airport roundtables
- Anticipate noise issues

DRAFT STATEMENT OF PURPOSE

**CENTENNIAL AIRPORT/COMMUNITY ROUNDTABLE
Statement of Purpose**

The Centennial Airport/Community Roundtable is a voluntary association of the Airport Authority, surrounding communities, federal and state agencies and airport users. It is created to address aircraft noise issues in the communities adjacent to the Centennial Airport.

In a non-adversarial, interactive and collaborative open forum, the Roundtable will seek to identify and dimension noise issues, discover possible mitigation actions, find opportunities for implementation and evaluate the effectiveness of the mitigations.

While the Roundtable's initial efforts in the development of a Work Program will be directed on noise issues associated with current aircraft operations, consideration of future noise issues also will be addressed, including interaction with roundtable activities at other airports.
