

**REPORT/ RECOMMENDATION TO THE BOARD OF COMMISSIONERS OF
ARAPAHOE COUNTY PUBLIC AIRPORT AUTHORITY AND
RECORD OF ACTION**

June 16, 2022

FROM: Mike Fronapfel, Executive Director/CEO

SUBJECT: Legislative Report

RECOMMENDATION: Advisory Only

BACKGROUND: On May 31st, The Department of Defense (DOD) and U.S. Navy released draft performance standards for fluorine-free foam (F3) fire-extinguishing agents and requested industry comment in the next 30 days. Over the past several years, DOD, in coordination with the Federal Aviation Administration (FAA), has been actively developing this updated military specification to facilitate the transition to F3 agents and away from PFAS-containing foam. Once finalized, FAA is widely expected to adopt and use the updated standard to determine which F3 agents may be used at Part 139 commercial service airports. Based on the testing FAA has conducted on available fluorine free foams, we are cautiously optimistic that the industry could see an approved F3 agent in early 2023.
