

**REPORT/ RECOMMENDATION TO THE BOARD OF COMMISSIONERS OF
ARAPAHOE COUNTY PUBLIC AIRPORT AUTHORITY AND
RECORD OF ACTION**

May 12, 2022

FROM: Derald Shaw – Director of Maintenance

SUBJECT: Approval to Purchase Multi-Function Snow Removal Equipment.

RECOMMENDATION: Motion to approve the purchase of two 2022 Oshkosh HT chassis with 24' plow blade and 22' XT broom (multifunction equipment) for \$1,097,750/each.

BACKGROUND: The new snow removal equipment will be used in conjunction with our current snow removal fleet. This new equipment will provide a much cleaner landing surface for arriving and departing aircraft and will help to mitigate excess time on the runway. The Oshkosh brand also provides very easy and fast disconnect of the broom portion when it is no longer needed while also providing four-wheel steering and two rear mounted air blowers, which helps to speed up removal time and ensure a contaminant free surface. This equipment is being purchased through Sourcewell which meets the Authority's competitive bid requirement. Other options were considered but it was determined that the Oshkosh model was the best fit for Centennial Airport.

FINANCIAL DATA: A grant from the Colorado Division of Aeronautics will fund \$350,000 towards the total purchase. The 2022 capital budget includes sufficient funds to cover the remaining cost for the purchase of this equipment.

REVIEW BY OTHERS: L. Hinton, M. Fronapfel

PRESENTERS: Derald Shaw
