BACKGROUND: FAA plans to release updated BIL guidance in early May followed by an announcement on the grant awards starting at the end of May. Centennial Airport submitted an application in April for \$36 million for the design and construction of a new tower. We also provided information to the FAA on the costs to do just the sighting, design, and engineering of the facility (~\$4 million).

On April 22nd the FAA launched the Airport Climate Challenge in an effort to encourage U.S. airports to reduce greenhouse gas emissions (GHG) with the goal of achieving net-zero emissions by 2050.
